Product Introduction

KOCO
INDIA 

DC CORELESS MOTOR

Utilizing precious metal brushes, high performance Nd-Fe-B magnet, small gauge high strength enamelled winding wire, the motor is a compact, light weight precision product. This high efficiency motor features low starting voltage and low power consumption. As a drive motor, some typical applications include small household appliances, mini UAV's, and remote control hobby products. The motor also provides the vibration function in wearable health care equipment, mobile phones and tablet PC's.
